“At the meeting some people were interested in this service. The service is "a-action pest control" at 847 838-5680. Doug sprays the whole house but not the roof top and guarantees the service,,, i.e., he will come back and get rid of anything that develops that season. With our all cedar house he charges \$225 but we have not had any problems since he started.”

“We are being charged \$225 per month plus a monthly charge for dumping of \$10. Fertilizer treatments are \$100 and \$75 for hedging the shrubs. Everything else is included in the \$225.”
